

CUSTOMISED SOFTWARE DEVELOPMENT FOR A COMPANY PROVIDING DAILY SERVICES

An India based company which provides platform to professionals who are into services like Beauty, Repair, Cleaning, Grooming, Painting, Plumbing etc. The company approached COOHO Branding Company with an idea of features it expected in the solution. We started with the process by understanding the functionalities of the unique solution. They wanted a unique software which could cater to-

OUTCOME

The software was a big success for the client and it attained over 10 lac users in an year. They scaled their operations to other cities as well. They appreciated our work and certain changes were also made at later stage due to larger audience set. They are one of our prestigious clients and big success stories.
